

A4 12 lead ECG machine with WiFi, advanced interpretation, 8" colour LCD and electrode placement adviser

seca CT8000P-2

- + Robust and reliable: ideal for busy clinics
- + Wi-Fi connectivity and seca link software included as standard – PDF ECGs automatically download to your pc following acquisition
- + 8" colour high-resolution screen with anatomical electrode placement (hook-up adviser function)
- + Compatible with all leading EMR systems – EMIS, SystmOne, Vision and others
- + Brilliant signal quality – ideal for paediatric ECGs
- + Capture and store 10 minutes of uninterrupted 12 lead data to document intermittent arrhythmias
- + Lead reversal: Warnings and misplaced electrodes are immediately displayed before ECG acquisition
- + Exercise ECG protocols for treadmills / ergometers (optional extra)

systemone

Compatible with emis and all EMR systems

A4 12 lead ECG machine with WiFi, advanced interpretation, 8" colour LCD and electrode placement adviser

First-grade ECG acquisition – digital or on paper

The seca CT8000P-2 is a highly reliable and robust ECG machine with easy data access and fast transmission of ECG reports to your EMR system. It can receive and send data via Wi-Fi or LAN, preview all 12 ECG leads simultaneously on its generous high-resolution screen, has a large memory and an in-built A4 thermal printer. This enables you to process ECG records digitally and paperless or as A4 printout.

Display	8" colour high-resolution screen with anatomical electrode placement
Memory	Storage of up to 350 ECG's
ECG Channels	12
Net weight	4.5 kg
Dimensions (WxHxD)	384 x 319 x 90 mm
Power supply	Rechargeable batteries, Mains adapter
Functions	<ul style="list-style-type: none"> + Print function + QTc interval - Ideal for Mental Health + Preview screen feature + ETM Interpretation – adult & paediatric + Ethernet / Wi-Fi + QTc formulas = Bazett, Fredericia, Fremingham or Hodges + Compatible with all EMR systems – emis, SystmOne, Vision and others + Supplied with seca Link PDF download software

The ECG that advises you

With the anatomical hook up adviser electrodes are always placed correctly. It shows a rotatable and zoomable 3D-body with the correct positions of all ten electrodes. An overview of all 12 channels with colour-coded lead quality check safeguards every ECG acquisition. In case of lead reversal, warnings and misplaced electrodes are immediately displayed before ECG acquisition.

Expand your diagnostic capabilities

The seca CT8000P-2 is equipped with a vast range of diagnostic functions and even provides a large selection of exercise ECG protocols for treadmills and ergometers (stress test ECG upgrade required). Thanks to very high sampling frequency and a large frequency band up to 250 Hz, the seca CT8000P-2 is suitable to perform paediatric ECG. The Software provides a large range of QTc formulas like Bazett, Fredericia, Fremingham or Hodges.

Accessories	<ul style="list-style-type: none"> + 858Z.CT8000P-2: A4 Z-fold ECG paper + CT500-2: Height Adjustable ECG Cart + seca trace Q-tab electrodes, pack of 500 + seca CT8000P-2-EX-W: extended warranty, giving 5 years piece of mind
Scope of supply	Patient cable, mains cable, 300x seca trace Q-tab electrodes, alligator clips, pack of z-fold paper, seca Link PDF software for easy transfer of data to your EMR system
